NARCOTICS SECURITY SYSTEMS

NARC I
1/4" BODY
WITH
1/2" DOOR

NARC II
1/2" BODY
WITH
1" DOOR
OPTIONAL
INTERIOR

- **Body** of 1/4" or 1/2" steel continuously welded with bottom rear of unit slightly rounded to facilitate sliding unit into position.
- **Door** of 1/2" or 1" steel equipped with U.L. Group II million combination key change combination lock with built-in re-lock and external re-lock triggered to the combination lock. Door also equipped with a "Best" 7 pin tumbler and spring bolt day lock. Door bolt work consists of three 3/8" by 1" steel locking bolts with chrome finish and drive resistant features *plus* a continuous dead bolt on the hinge side.
- Left swing doors optional extra.
- **Interior.** Standard interior consists of 4 full suspension pullout and tilt-up removable drawers of 18 gauge steel with recessed drawer pulls front and rear. Each drawer equipped with one full depth front to rear divider on 1" centers designed specifically for narcotics storage. Standard unit is equipped with suspension slides for six drawers to allow rearranging of existing drawers *or* addition of two extra drawers. These may be deleted and permanent fixed storage added as an optional extra. Also standard are two (2) 1/2" anchor holes with 3/8" x 1-1/2" lag screws for anchoring the unit to a base or to the floor.
- **Color** white exterior with light gray interior

mini-NARC

MINI-NARC II

MINI-NARC I

Designed for minimum narcotics storage requirements without sacrificing protection. This safe features the construction of larger units but requires a very small amount of space. Body is constructed of 1/2" steel with a 1" thick steel door equipped with three locking bolts, U.L. Group II lock and relocking device with a full length dead bolt on the hinge side. An anchor hole can be provided at no charge. As an optional extra, this unit can be provided with welded steel flanges for anchoring.

MINI-NARC II

Small Narcotics safe for limited storage.

Features:

1/2" steel body and 1" thick door with three locking bolts, U.L. Group II lock and relocking devices. Unit installed in steel clad concrete block. Includes shelf stripping for optional adjustable shelves.

MODEL	INSIDE DIMENSIONS				OUTSIDE DIMENSIONS			Approx. Shipping Weight
	High	Wide	Deep	Cubic Inch Capacity	High	Wide	Deep	
MINI NARC I 1/2" Body 1" Door (Not Shown)	10	14	13	1820	11	15 Rear* 15 1/2 Front**	16	290
MINI NARC II 1/2" Body 1" Door	18	14	19	4788	33	19	25	1160**

*Front width is greater due to hinge projection on right side.

**Unfilled weight approx. 490 lbs.
