Construction Characteristics

- 1 inch body and 1½ inch doors of carbon steel with 50,000 lbs. tensile strength. All joints electrically welded.
- Group II Underwriters approved lock and separate relocking device.
- Spyproof key locking dial for dual custody.
- Bolt detent to eliminate damage to locking bolts.
- The country's finest drill resistant hard plate protecting the lock and EACH locking bolt.
- All doors removeable and adjustable when open.
- Three or more one inch chrome locking bolts.
- Continuous locking bar on hinge side.
- Extra heavy hinges with ball bearings and a single pivot point.
- Hard plate protecting lock is Xray proof, radiographic proof, drill resistant and punch resistant.
- 24" high and larger available with 3-way bolt system.
- Bottom of all safes treated with Zinc Chromate to prevent rust.
- All safes painted with Polane® Polyurethane Enamel to give them superior appearance and durability.
- Wide range of optional interiors, timelocks, time delays, and claddings available.
- All safes carry full one year warranty.
