

Full Height Double-Door Safe

Safe, Complete with Shelves, Pigeon Holes and Lock Boxes, as Pictured at Right, No. 2056Y

When you entrust your records to this Shaw-Walker double-door Safe, you will be in a position to continue "business as usual", without confusion, interrupted collections, and lost business, which inevitably follow when records are destroyed by fire. The double-door Safe is most adaptable to varying requirements, cheapest per unit of capacity.

If your *business is small*, after a fire, you need all your records, not just an account book or two. This big-capacity safe will provide protection for every essential record and allow for expansion. If you have a *large office*, this safe can be equipped with Sectional and Sectionet Files to protect records of all sizes. Choice of 24 files, pages 161-164.

Bears Shaw-Walker Certified Protection label certifying that it meets the rigid specifications for one-hour protection. For details read "One-Hour Label", page 183. Has thick, steel-reinforced, cast, monolithic insulation.

Massive doors fit into frame with interlocking tongue and groove. Three heavy throw-bolts. Heavy unbreakable hinges. Three-disc combination lock with separate driving disc for extra protection. Heavy-duty ball-bearing swivel casters.

To order Safe, complete with two Utility Sections, No. 1542, and No. 2594 Adjustable Shelves, arrangement pictured, specify No. 2056Y.
