

The World's Finest Jewelers Rely On Us To Protect Their Valuable Collections.

You Can Too.SM

Since 1904 we have provided burglary protection safes and vault rooms to the diamond, jewelry and watch industries, from Fifth Avenue to Rodeo Drive, to companies such as Tiffany & Co., Bulgari, DeBeers, Cartier, Piaget, Chopard and Audemars Piguet. We applied this wealth of experience to designing a complete selection of burglary protection safes specifically for apartments and private homes. Available in all shapes and sizes and all levels of protection.

We work with many of the leading architects and designers throughout the country. Our safes are found in thousands of homes, including those of personalities in entertainment, arts, sports and the Fortune 500.

Handcrafted interiors are offered in a variety of exotic wood and lacquer finishes. Drawers are fitted with luxuriously covered inserts configured to organize jewelry, watches and other valuables.

A high security digital lock provides instant access to your valued possessions.

EMPIRESAFE

Buying a Safe is a Wise Idea. Buying the Right Safe is Even Wiser.

WE SPECIALIZE IN BURGLARY PROTECTION SAFES. To qualify as "The Right Safe" for residential applications, a safe must be both strong and heavy. For private homes, the heavier, the better. For apartments in high-rise buildings, if the safe selected is relatively light, we strongly recommend securing it to the floor or premises. (Anchoring your safe, especially one weighing less than 750 lbs., is always recommended, wherever it's located.)

AVENUE SERIES We created this line of safes to answer the burglary protection needs of those residing in high-rise apartment buildings. Constructed of thick solid steel with a heavy-duty reinforced frame (along with additional security features), makes it an exceptionally formidable safe. Compact and streamlined in design, models fit conveniently into closets, alcoves and other locations where space is limited. Available in 10 standard sizes. Custom sizes available.

Model AV2416 (left swing) with maple interior, sage elite covered shelf and jewelry inserts. This interior was configured to allow the drawers to open when the door of safe is restricted from opening more than 90°.

PROFESSIONAL "PRO-6" SERIES This is the latest version of our most popular apartment and private home model. A step up from the Avenue Series, this product is a streamlined version of the mid-range safes sold to the jewelry industry. Both heavy and strong, these six-sided armor plated safes provide the additional security (and fire protection) required for use in private homes. Available in 14 standard sizes.

Model PRO6-1814 with vermillion interior and black shadow cubby.

GOTHAM SERIES We created this line of safes for those requiring a higher level of security than provided by the PRO-6 Series. We added high security features including thicker armor plating on all sides, a specialized glass plate activated relocking system and a 3-way boltwork mechanism to provide similar protection found in the mid range safes we supply to the jewelry industry. Available in 3 standard sizes.

Model PHD2414 creme with walnut interior.

DIAMOND SERIES For those desiring security features found in the safes we supply to the diamond trade for the protection of extremely high value. Incorporated within this safe is the torch and tool resistant barrier material required by Lloyds and other insurance agencies to protect their clients' valuable collections. Offered in a variety of sizes.

Model with Chinese red high gloss finish, birdseye maple interior, custom brass drawer pulls, perle elite lined cubby and jewelry inserts.

**JEWELRY AND
WATCH INSERTS
FOR DRAWER SYSTEMS**

We stock inserts covered with sage elite (shown) and black shadow. Custom inserts are available in a large selection of materials and colors to suit your requirements.

A great way to add organization to your safe is with one of our drawer systems. Offered in a variety of finishes, they can be built to fit the interior of a new or existing safe. We stock many of our most popular designs and can also customize one to meet your particular needs. We offer a variety of drawer inserts configured to organize jewelry, watches and other valuables.

CONCEALMENT CABINETS We have designed a unique cabinet that permits the safe door to open wide, allowing easy access to the interior. Cabinets are available in a variety of wood and painted finishes to complement your decor.

PRO6-3016-12DL with vermillion interior and black shadow lined cubby and jewelry inserts. Cabinet finish: maple.

AV2618 with walnut interior and watch insert
