

# EMPIRE SAFE & VAULT

## Modification of Jewelry Storage Trays / VCT35

Standard Tray Dimensions: 25-3/4" x 17-3/4"

Price per standard tray: \$44

*\*Cost to reduce the length of the tray: \$12*

**Unit Cost for Reducing the Length of the Trays: \$12**

**\*Minimum Setup/Modification Charge: \$72 (for 1-6 units)**

If 1 unit is purchased, the cost will be  $\$44 + \$72 = \$116$

2 units:  $2 \times \$44 = \$88 + \$72 = \$160$

3 units:  $3 \times \$44 = \$132 + \$72 = \$204$

4 units:  $4 \times \$44 = \$176 + \$72 = \$248$

5 units:  $5 \times \$44 = \$220 + \$72 = \$292$

6 units:  $6 \times \$44 = \$264 + \$72 = \$336$

7 units:  $7 \times (\$44 + \$12 = \$56) = \$392$

**We will reduce the length of the long side (25-3/4") as requested by the customer.** Customers should carefully measure the access width leading into the safe, *unless the narrowest dimension inside the safe is less*. In addition, they must check to make sure the door of the safe opens wide enough to avoid interference with the clear access width. **As they say, "measure twice, not once".** (We will deduct 1/4" from the dimension given so the tray will fit inside easily.)

**The short side (17-3/4") will remain "as is".**

### **\*Further Reduction of Overall Length of Tray**

We can further reduce the length and width of the trays by cutting the lips back a maximum of 1/2" on each side (1" overall in either direction). *For example, if we maintain the internal length of the tray, the overall length will be 24-3/4". If we maintain the internal width of the tray, the overall width will be 14-3/4".*

**Important Note.** Please keep in mind that *if the trays are to be placed into our standard transport carts* you'll need to retain the 17-3/4" dimension (*with no modifications in this direction*) so the lips of the trays will rest on the angles in the cart.

**Payment in full is required at the time of order for any order and modification.**

### **No Refund Policy for Modified Trays**

Clients must confirm (in writing) that the overall length of the trays they order will fit into their safe(s). For this reason, once the order is placed (and paid for), NO refunds are acceptable.

**Any further modifications to trays (by request of the client).** The minimum fees indicated above apply to their change order. *In addition, if the changes are requested after the shipment is made to them, they are responsible for freight in and out.* If they don't give us their freight account number, we will need to obtain the full modification price plus the freight cost (plus tax where applicable) and any other fees incurred.

## Shipping & Handling Fees

**Trays are shipped in our standard boxes that can take up to 3 trays.**

Each box costs \$8.

Minimum labor charge of \$4 for up to 2 boxes.

Thereafter, an additional \$2 per box.

Recommended Freight Forwarder: UPS

Normal Shipment: Ground

Customer is charged actual fee by the freight forwarder or supplies us with their freight forwarder's account number.

We will advise the maximum number of boxes (containing 3 trays) that makes financial sense to be shipped.

***We might find that shipping the boxes on a pallet will be less costly, the savings which will be passed along to the client. If so, the client needs to advise if they require lift gate service. We have found that most customers do not require a lift gate since they can cut the straps holding the boxes to the pallet and remove them individually from the back of the truck.***
